

# 【Git】Github 新增專案檔案

create a new repository on the command line

```
echo "# sample_proj" >> README.md
git init
git add README.md
git commit -m "first commit"
git branch -M main
git remote add origin https://github.com/treemanou/sample_proj.git
git push -u origin main
```

push an existing repository from the command line

```
git remote add origin https://github.com/treemanou/sample_proj.git
git branch -M main
git push -u origin main
```
