

【Jenkins】常用plug-in

Deploy to container Plugin

This plugin allows you to deploy a war to a container after a successful build.
Glassfish 3.x remote deployment

1.16

Copy Artifact Plugin

Adds a build step to copy artifacts from another project.

1.46.2

Build Pipeline

建置工具

其他建置後動作

使用者介面

This plugin renders upstream and downstream connected jobs that typically form a build pipeline. In addition, it offers the ability to define manual triggers for jobs that require intervention prior to execution, e.g. an approval process outside of Jenkins.

Warning: This plugin version may not be safe to use. Please review the following security notices:
