

【Python】安裝psycopg2錯誤

```
[root@proxy ~]# yum -y install gcc gcc-c++ make
[root@proxy ~]# pip3 install psycopg2
Error: pg_config executable not found.

#找到pg_config 真實路徑(有可能自訂安裝路徑不同)
[root@proxy ~]# export PATH=/usr/pgsql-12/bin/:$PATH

[root@proxy ~]# yum install -y postgresql-devel
./psycpg/psycpg.h:35:20: fatal error: Python.h: No such file or directory
#include <Python.h>
      ^
compilation terminated.

[root@proxy ~]# yum install -y python36-devel

[root@proxy ~]# pip3 install psycopg2
```
