

# 【shell】 deny\_hack\_ip.sh

簡單阻擋 try 帳號 ip

```
#!/bin/bash
#cat /var/log/secure|awk '/Failed/{print $(NF-3)}'|sort|uniq -c|awk '{print $2"="$1;}' > /root/block.txt
cat /var/log/secure|awk '/Invalid user/{print $(NF-2)}'|sort|uniq -c|awk '{print $2"="$1;}' > /root/block.txt
DEFINE="10"
for i in `cat /root/block.txt`
do
    IP=`echo | awk '{split("'"${i}"'", array, "=");print array[1]}``
    NUM=`echo | awk '{split("'"${i}"'", array, "=");print array[2]}``
    if [ $NUM -gt $DEFINE ];then
        grep $IP /etc/hosts.deny > /dev/null
        if [ $? -gt 0 ];then
            echo "sshd:${IP}:deny" >> /etc/hosts.deny
        fi
    fi
done
```
